

# A5 Seed Paper Greetings Card

A CHRISTMAS CARD THAT KEEPS ON GIVING! CUSTOMISE IT WITH YOUR MESSAGE AND WATCH IT BLOOM INTO WILDFLOWERS.

SUMMARY	Send a festive message with a lasting impact. Our A5 Seed Paper Christmas Card can be fully customised with full-colour printing, and when the season is over, it can be planted to grow wildflowers, ensuring your brand stays memorable long after the decorations are down.
PRODUCT DETAILS	Why settle for a card that's only good for a week or two? Our A5 Seed Paper Christmas Card is designed to be enjoyed beyond the festive season. Available in either 140gsm or 220gsm wildflower seed paper, it can be printed in full colour on the outside, inside, or both. Fold it vertically or horizontally – though we recommend horizontal for the best results – and add your brand's personal touch. For an even more memorable experience, you can include a seed paper envelope that can also be printed on the outside for an additional cost. Once the festivities are over, your clients can plant both the card and the envelope to watch wildflowers bloom, creating a beautiful reminder of your brand. Key Features: Size: A5 (210mm x 148mm) Material Options: 140gsm or 220gsm wildflower seed paper Printing: Full-colour print on the outside, inside, or both Folding: Vertical or horizontal (Vertical recommended) Seed Paper Envelope: Available as an additional option, with customisable printing on the outside
